

OWODAT DATA ANALYSIS

TITLE

ENTIRE DATABASE - DATA ANALYSIS REPORT FOR THE PERIOD OF 01 APR, 2010 - 31 MAR, 2024 AS ON 03 AUG, 2024.

The OWODAT (Wildlife Offenders Database) report provides a comprehensive analysis of wildlife-related offenses in the country, focusing on cases registered across various conservation and protected areas. This report aggregates data on wildlife crimes, including the number of cases, suspects, and specific wildlife species affected.

OVERVIEW

This report aims to give an overarching view of wildlife crime trends and enforcement actions, highlighting critical statistics on offenses involving elephants, pangolins, and other key species. By analyzing the data dynamically through filters such as Conservation Area, Protected Area, and Case Date, this report offers valuable insights to aid in the effective management and protection of the country's wildlife resources.
